1. Overview

This PMS – Invoice Receipts User Guide provides staff with detailed instructions on managing tax invoices, receipts, and related tasks. It covers functions such as creating and managing invoices, filing tax information, printing receipts, exporting data, and emailing invoices. The guide is designed to ensure clear, step-by-step instructions for effective use of the system in handling tax and receipt processes.

2. Invoice Receipts

Available under **PCS > Invoice Receipts,** this function allows staff to view a list of receipts and invoices issued to customers.

To perform the task:

- 1. Select **BU**.(PMS, POS, etc..)
 - Document No. The receipt or invoice number issued by the system.
 ACC (Account Charge): Invoice issued for later payment, often for credit or corporate customers.
 ABB (Receipt): Issued when payment is received, typically after guest checkout or walk-in sales.
 - Customer Code Internal customer reference code (if available).
 - □ Customer Name The name of the customer receiving the document.
 - □ Vatable Amount not subject to VAT.
 - Non Vatable Amount not subject to VAT.
 - Amount Total amount before VAT and service charges.
 - SER.AMT—Service charge amount (if applicable).
 - □ VAT.AMT—VAT amount calculated from the vatable amount.
 - TAX.AMT Withholding tax amount (if applicable).
 - □ Total Final amount payable by the customer.
 - Receipt Date Date when the receipt or invoice was issued.
 - Ref No. Reference number for tracking in the financial system.
- 2. Select Invoice receipt.
- 3. Press **Print** to print the receipt or invoice.
